

## FRACTIONS DÉCIMALES

### 1) A quel nombre décimal correspondent ces fractions ?

Exemple :  $72/10 = 7,2$

$25/10 = \dots\dots\dots$

$31/100 = \dots\dots\dots$

$5/100 = \dots\dots\dots$

$248/1000 = \dots\dots\dots$

$127/100 = \dots\dots\dots$

$129/10 = \dots\dots\dots$

$7/10 = \dots\dots\dots$

$9/10 = \dots\dots\dots$

$24/10 = \dots\dots\dots$

$27/100 = \dots\dots\dots$

$49/100 = \dots\dots\dots$

$7/100 = \dots\dots\dots$

$725/100 = \dots\dots\dots$

$275/1000 = \dots\dots\dots$

$58/1000 = \dots\dots\dots$

### 2) Écris les nombres suivants sous forme de fraction décimale.

Exemple :  $2,5 = 25/10$

$14,5 = \dots\dots / \dots\dots$

$0,8 = \dots\dots / \dots\dots$

$2,05 = \dots\dots / \dots\dots$

$6,48 = \dots\dots / \dots\dots$

$0,75 = \dots\dots / \dots\dots$

$42,05 = \dots\dots / \dots\dots$

$10,040 = \dots\dots / \dots\dots$

$8,245 = \dots\dots / \dots\dots$

$57,203 = \dots\dots / \dots\dots$

$8,6 = \dots\dots / \dots\dots$

$2,56 = \dots\dots / \dots\dots$

$0,19 = \dots\dots / \dots\dots$

$56,1 = \dots\dots / \dots\dots$

$0,06 = \dots\dots / \dots\dots$

$0,009 = \dots\dots / \dots\dots$

## FRACTIONS DÉCIMALES

### **CORRECTION**

#### **1) A quel nombre décimal correspondent ces fractions ?**

*Exemple :  $72/10 = 7,2$*

$25/10 = \mathbf{2,5}$

$31/100 = \mathbf{0,31}$

$5/100 = \mathbf{0,05}$

$248/1000 = \mathbf{0,248}$

$127/100 = \mathbf{1,27}$

$129/10 = \mathbf{12,9}$

$7/10 = \mathbf{0,7}$

$9/10 = \mathbf{0,9}$

$24/10 = \mathbf{2,4}$

$27/100 = \mathbf{0,27}$

$49/100 = \mathbf{0,49}$

$7/100 = \mathbf{0,07}$

$725/100 = \mathbf{7,25}$

$275/1000 = \mathbf{0,275}$

$58/1000 = \mathbf{0,058}$

#### **2) Écris les nombres suivants sous forme de fraction décimale.**

*Exemple :  $2,5 = 25/10$*

$14,5 = \mathbf{145/10}$

$0,8 = \mathbf{8/10}$

$2,05 = \mathbf{205/100}$

$6,48 = \mathbf{648/100}$

$0,75 = \mathbf{205/100}$

$42,05 = \mathbf{4205/100}$

$10,040 = \mathbf{10040/1000}$

$8,245 = \mathbf{8245/1000}$

$57,203 = \mathbf{57203/1000}$

$8,6 = \mathbf{86/10}$

$2,56 = \mathbf{256/100}$

$0,19 = \mathbf{19/100}$

$56,1 = \mathbf{561/10}$

$0,06 = \mathbf{6/100}$

$0,009 = \mathbf{9/1000}$
